EXPERIENCE

INSTRUCTIONAL DESIGNER II, 7/2017 – present

TSYS | BROOMFIELD, CO

- Produces high-quality and innovative learning experiences that contain self-paced and interactive eLearning, instructor-led courses, webinars, job-aids, scenario-based learning, and blended solutions
- Collaborates with groups across the organization to analyze, design, develop, produce, implement, and maintain content for learning solutions that are appropriate for the culture and level of expertise of individual users of the organization's various programs, products, solutions, processes, and services
- Manages various learning solution projects, establishes project timelines and parameters, maintains project materials, provides status reports to management throughout project lifecycles, and prioritizes assigned projects as needed
- Administers Cornerstone learning management system and manages eLearning course catalog

INSTRUCTIONAL DESIGNER, 2/2017 – 7/2017

THE CE SHOP | DENVER, CO

- Researched and organized information and compiled instructional materials (tutorials, references, audio and video scripts, storyboards, navigational text, assessment questions, etc.) to create appropriately timed courses that met regulatory requirements and followed adult eLearning pedagogy
- Developed course outlines and objectives (Bloom's levels 1-6), determined user, selected appropriate training approach best suited for the content, structured course content, and developed curriculum to be implemented in full course cycles
- Transformed complex, unorganized information into clear and effective multi-media training and instruction in an extremely fast-paced environment
- Served as a specialist in producing complex state-of-the-art instructional programs
- Developed clear knowledge assessment questions (Bloom's difficulty levels 1-3)
- Worked with various SMEs to evaluate suitability of material and create outlines
